

ALGAE GUARD

Controlled Release Condensate Drip Pan Micro-Biocide

LET ALGAE GUARD CLEAN CONDENSATE PANS FOR YOU

Contains high performance cleaning agents to help stop dirt and slime from settling on surfaces.

EPA REGISTERED # 59682-1

32% active ingredients. Effective against Algae, Mildew, Slim, Fungus, and Bacteria in condensate pans, refrigerators, ice machines, and evaporative coolers.

Controlled release micro-biocide effectively acts on odors.

For use in medical facilities, nursing homes, government, commercial buildings, residential air conditioning units, cruise ships, airports, hotels, resorts, schools and industrial areas.

PREVENTS OVERFLOW

Overflows due to pan surface slime build up and resulting plugged drains are reduced or completely eliminated. Predictable, continuous performance over 99% effective.

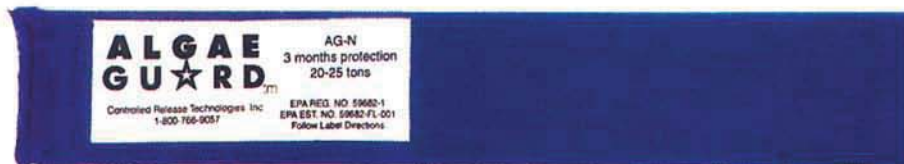

WORKS CONTINUOUSLY FOR YOU!

Just place an Algae Guard strip in your condensate pan once every three or six months (depending on the size) and it works for you continuously. With Algae Guard, you don't waste your time.

GUARANTEED TO SATISFY

More than ten times the value of tablets. Algae Guard always works.

14 sizes to choose from!
