PanGuard

Timed Release Condensate Cleaner

Technical DATA

PERFORMANCE

There are obvious reasons for the superior performance of PanGuard over other products. Its timed-release formulation puts it head and shoulders over other products and improvements do not stop there.

Our superior cleaning agents makes PanGuard your best buy.

Bright Green Knit Enclosure

- Non-dissolving polymer core with:
1. Superior Cleaning Agents
 2. Dispersants to break up and remove dirt.
 3. Wetting Agents to penetrate deposits
 4. Exclusive C-10 Corrosion Inhibitor to protect galvanizing

The green knit enclosure lets water pass through to contact all of the surfaces.

INGREDIENTS

A blending of wetting agents, surfactants, detergents and C10 corrosion inhibitor.

PHYSICAL CHARACTERISTICS

- Slim strip design releases cleansers over a greater expanse of the pan surface, allowing the condensate to carry the cleaners into the entire pan, not just a small area.
- Retains constant weight in water.
- Water-permeable orange fabric enclosure helps keep the product intact and visible for easy removal.
- Leaves no chemical residue in the pan.
- Engineered for all sizes of air-conditioning pans.

AIR STREAM

The ingredients are not volatile and will not travel through the air stream.
