INSTANTTM Powder Kegs

All Purpose Coil Cleaner!

The First Powdered Coil Cleaner Asks the Question, "Why Haul Water?"

INSTANT POWDER KEGS Are Easy To Use and Carry. It Will Change The Way You Work.

SAVE MONEY!

One package contains six separate "Kegs". You gain mixture strength by adding bags to your water. You don't waste money like concentrated coil cleaners by using too much right off the bat. And freight cost? Why pay an extra \$1 a gallon or more just to ship water? We thought you just might already have water where you are.

With **Instant Powder Kegs** storage problems are gone. One package of 6 kegs equals a gallon of 6 to 1 concentrate and weighs only one and a half pounds. It fits easily on a shelf, won't leak and doesn't separate. Service techs can carry a "gallon" of coil cleaner tied on their belt loop or in their pocket with no problem.

Add Powder Kegs to water at the jobsite and forget about leaking products during transport and storage. **Instant Powder Kegs** is portion controlled and good for all types of coils.
